

the lang of eur - we willget our crew and practice with them for awhile. Then - you geress - go raise come hell stour own! Wicked. They have no wing to sheak of, so consequently with the load they carry they have an extremely high landing sheed. Believe it or not they are the hottest ships the army has and lots of pursuit ships can't even begui to catchen! Our field here is hand new a matter of weeks. so naturally the living conditions are very frimitive. at present & feel like the very devil- just plain wom out. Think its due to not having having exercise in such a long time, combined with our water change. The water here is full of sulfur and as usual the army has fooded it with chloring. - The combination is wicked take it from me! The only 8: 30 and I'm more than wady for bed, so you know! Lots of our fellows are getting sent out futly soon as co-hilots. They are being used to complete evens that are almost ready to growt. In just hoping Inc bucky enough to get to stary and be checked out as a "first pilot instead. - Keep your fringers crossed for me. By the way. Two wer into most of my old outfit? was with in Camp lavis you can't ever till who you will me into where! -Solla go now - Sin just too tired. Hrite when you can - and often. - Bye + free frank.
